

Myrus Workforce Development

Myrus is so much more than a simple LMS.

It's a complete learning management tool kit to take care of all your online and blended learning needs. It's also your key to staff retention, satisfaction and operational success in Health and Social

eLearning

Myrus supports CQC compliance for care companies by centralised data collection, real-time reporting, and progress monitoring while offering innovative courses for improved staff retention and satisfaction. It will save you time and money.

Competence Management

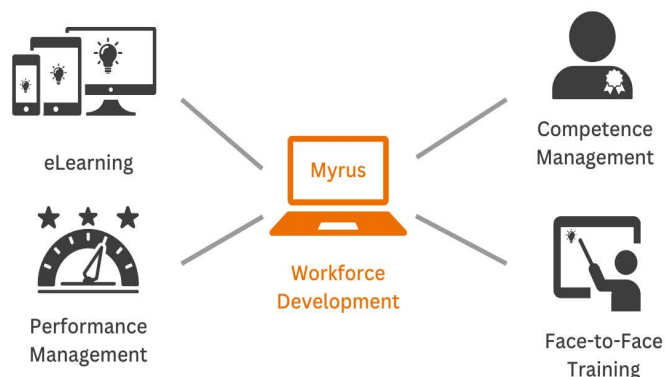

Reassure service users, families, local authorities and governing bodies with evidence that your staff and organisation maintain competency in key areas.

Myrus enables managers and supervisors to efficiently set, record, and report competency levels for each role.

Performance Management

Myrus Performance Management tool enables staff and managers to collaborate through regular appraisals, setting objectives, KPIs, and role expectations, while maintaining communication and monitoring performance.
